

STOLE \$20,000 AND HAS FLED. FIGHT CROKER.

Employer Said "Go" to Gates, When He Confessed.

NO WARRANT FOR ARREST

Spent Money Like Alford and Error of \$2 Found Him Out.

William M. Gates, a confidential employee of the firm of Frank & Dulles, insurance brokers, according to the firm's story today, used about \$20,000 of the firm's money.

Mr. Frank said today that no warrant had been sworn out for the arrest of Gates.

"Gates committed his peculations by manipulating the expense account of the firm," said Mr. Frank. "He had supervision of the payroll. Although all checks were signed by a member of the firm he was able to make them out."

"We pay salaries semi-monthly. Sometimes our employees draw in advance a half month's salary. We give this privilege when there is sickness or other trouble. Gates used to make out the checks and submit them for signature, but he would make out duplicate checks, one of which he would submit to me for signature and the other to Mr. Dulles."

He was not guilty of forgery, but by having two checks for the same amount he could pocket the amount of one of them. As we have about twenty-five people in our office, and the salaries are similar, it was not difficult to make out a check for \$20,000."

"We trusted him implicitly, and never thought of examining his accounts. He had been with us twenty-three years and was a good man. Everything he did had our endorsement because of our confidence in him. We were not suspicious until we found that he had been making out checks for \$20,000."

"The only check we had on his expenditure was by comparison of the expenses of one year with that preceding. As we increased salaries from \$100 to \$125, and took on new employees, the increase seemed to us to be only normal."

"The money is gone, but that is not what grieves me. We are angry at having been deceived by one so trusted. No, we will never take him back."

When Mr. Dulles found that the confidential clerk and bookkeeper of twenty-three years had been robbing his firm he was ready to turn him out. Mr. Dulles turned to him and said: "Gates, we've known you a long time. You have done wrong and we must discharge you. So get out of my office. I don't want you any more. It had been enough to know you were well, get out."

Only enough Gates felt that he was being badly treated at being discharged at such short notice. He reminded Mr. Dulles that other employees had been dismissed by taking money and been forgiven.

"Yes, that's so; we're tired of it now and almost tempted to make an example of you. You had better go, Will. Now, get out."

And Gates did. He went to his handsome four-story stone-front house at 97 Union street, Brooklyn, where he lived with his wife, a handsome woman who shines in Brooklyn society. Yesterday he departed with a grip-sack and Capt. McKenzie's man may have some trouble in serving the warrant. Mr. Frank & Dulles have an office at 41 William street. Theirs is the richest and most respected insurance brokerage house in this city.

Gates entered their employ as an errand boy. He advanced to be head bookkeeper and received \$200 a year and \$25 a month Christmas bonus. Gates was an Alford in habits, appearance and results in a small way. He is fat, chubby, good natured, smiling and sporty.

WANAMAKER WINS.

Ex-State Printer Robinson Sued in \$25,000 Damage Suit.

PITTSBURGH, Dec. 6.—A non-suit was granted by Judge Wilson, of Beaver County, today in the case of Thomas Robinson, ex-State Printer, against John Wanamaker. The suit was for \$25,000 damages for slander.

During the campaign of 1898 Mr. Wanamaker is alleged to have made charges that Robinson conspired with others to defraud the State.

In the motion for a non-suit the defense claimed that the general declaration subscribed to the defendant in the statement of the plaintiff had not been proved and that the statements made by the plaintiff were untrue. The defense must produce proof that the statements made by Mr. Wanamaker were untrue.

The non-suit granted by Judge Wilson closes the case. The plaintiff made a motion that the non-suit be taken off the record and the case continued for argument. It will probably be argued some time next month and the case then taken to the Supreme Court.

BOY WHO KILLED GIRL SENTENCED

Owen Squire Sent to Jail for Four Months.

Eighteen-year-old Owen Squire, who was convicted last week of manslaughter in the second degree for the shooting and killing of Lizzie Hilergrail on Nov. 6, was arraigned for sentence today before Judge Harrison B. Moore, in the Queens County Court, Long Island City.

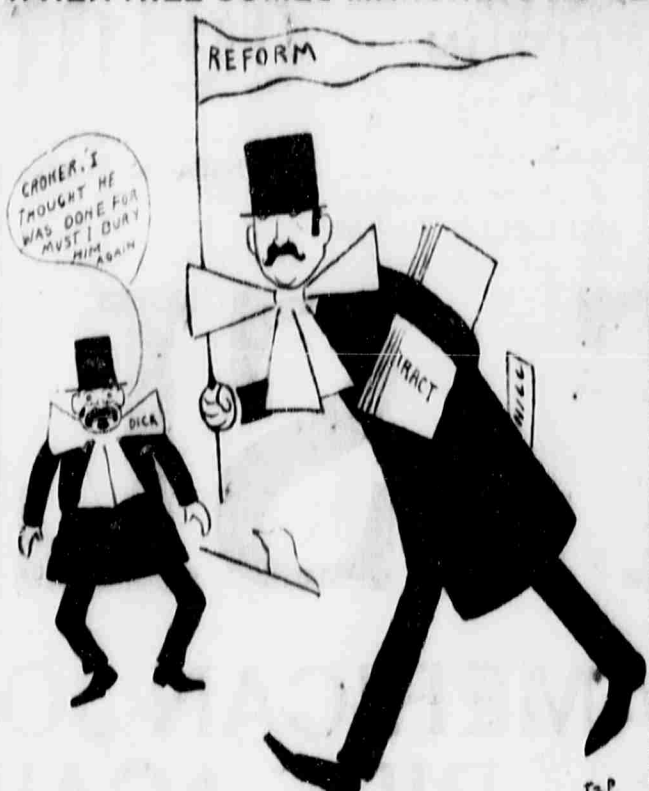

Several women from Richmond Hill, where the lad lived, testified that Moore, at the time of the case and needed for leniency. At the trial Squire insisted that the shooting was purely accidental and people in Richmond Hill who had known him well believed that he told the truth.

Before sentence was pronounced Mr. Squire, the boy's counsel, asked for a new trial on the ground that the evidence had been admitted to show that Squire was addicted to smoking cigarettes. He contended that this had prejudiced the minds of the jury against the prisoner. Judge Moore denied the motion for a new trial.

District Attorney Merrill said he thought that a short term of imprisonment in the county jail would be sufficient punishment.

Judge Moore said that he was satisfied that the prisoner should be punished in such a way that would be a warning to him against the careless handling of guns in the future. He sentenced Squire to four months in the Queens County Jail.

WHEN HILL COMES MARCHING HOME

He's right in it now. You can't keep an honest workingman down. Observe the expression of remorse and terror which Artur Powers, with psychologic hindsight, places in the face of Honest Bill Croker, the only Goo-Goo man.

SUPT. EDWARDS STOCKS BOUGHT QUILTS B. R. T. IN BIG BLOCKS.

Resigns Suddenly and Pennsylvania Leads the May Have Clashed with Rossiter. List in a Brisk Market.

George W. Edwards has resigned from the position of general superintendent of the Elevated system of the Brooklyn Rapid Transit, and this has given rise to many rumors in the borough across the bridge.

The specific cause for the sudden action of Mr. Edwards is not known, and no confirmation could be had at the company's office, at Monahan and Clinton streets, today of the report that there had been a quarrel between President Clinton L. Rossiter and the superintendent.

Mr. Edwards gave in his resignation late yesterday, and did not appear at his accustomed place in the office, on the platform of the Elevated structure at the Brooklyn end of the bridge, from which he directed the operations of all the "E" lines and the Bridge stream cars today.

When an Evening World reporter called at the Rapid Transit office Mr. Rossiter refused to see him, but Private Secretary Wickes said:

"It is quite true that Mr. Edwards has resigned. He did so yesterday afternoon. It is not true that there has been any quarrel between him and Mr. Rossiter."

It is said that Eugene Chamberlain, now superintendent of Brooklyn, will be appointed to succeed Edwards. Mr. Chamberlain is in the office of the general superintendent of the Elevated system, at 125 Broadway, and is a close friend of Mr. Edwards.

Mr. Edwards also resigned from the committee and introduced by Chairman Payne yesterday.

There was an unusually large attendance for an early meeting, there being only two absentees—Rabcock, Republican, and Robinson, Democrat.

Mr. Payne laid the bill before the committee, and consideration of its details at once began.

When the beer session was reached fixing the rebate at 20 per cent, instead of 7 1/2 per cent, which makes the rate \$1.00 per barrel, Representative Richardson, the ranking minority member, moved a further reduction of all the income by the war revenue act.

The effect of this motion if carried, would have been to make the rate \$1 a barrel.

The motion was defeated by a party vote.

The consideration by sections proceeded, the bill being preserved in the main as framed by the Republicans. The committee voted down resolutions to eliminate all special taxes on tobacco dealers, to restore the tax on cigarettes and tobacco, to exempt religious and charitable institutions from the inheritance tax and to substitute a bill providing an income tax and inheritance tax. The war revenue act will be reported Friday or Saturday.

COAL PRICES ADVANCED.

Lehigh Valley Rate Up Twenty-five Cents on the Ton.

HAZLETON, Pa., Dec. 6.—The price of all kinds of coal for local consumption has been advanced 25 cents a ton by the Lehigh Valley Coal Company.

This is the first advance made since the strike.

Local dealers said today that they had not raised the price of coal, and that there was no present prospect that the price would be raised.

LONDON STOCKS FIRM.

American Railers Prominent, with the Pacific Leading.

Firmness was the dominating feature of the London stock market today, fears regarding the monetary outlook having been dispelled.

In the American railway department much improvement was shown and prices were strong, with Pacific houses and Baltimore & Ohio leading. Active buying of bear accounts was noted for the improvement.

Advances above New York's closing figures of yesterday ranged from 1 1/2 to 7 1/2 per cent, with an average of 3 1/4 in the Pacific stocks.

Paris turned a buyer of copper shares.

HUNDREDS OF VICTIMS OF WALL STREET FRAUD.

(Continued from First Page.)

test these men, Morgan and McKenzie, I am ready to meet the test. Let us see if the judgment of the District Attorney's office and the detective department is solely at fault. We are prepared to prove that all these men are thieves.

Atorney McKenzie said that he had been in the alleged blackmail case, which is to come up for trial Saturday, tried to secure an adjournment of the hearing until the other case had been heard. This was objected to by Mr. Burges, who said:

"I will consider any attempt of this sort as being in direct opposition to my sworn duty as District Attorney."

W. D. Bailey of Manhattan, N. Y., was the first witness called. He said that he was a woodworker and that he knew both C. W. Morgan and John H. McKenzie and Claude Turner, manager for McKenzie.

He said that he first met McKenzie some time in January last and that he talked with him about investment in Wall street, and that McKenzie told him that he had been a successful operator in the street and had invariably made money for all his customers.

After making several visits to McKenzie's office, which is at 11 Broadway, he arranged with him to open an account of \$500 with C. W. Morgan & Co. The money was to be deposited with Morgan and McKenzie was to operate the account.

Gave Him \$500 Check.

"I told Mr. McKenzie," said Bailey, "I would put in \$500. Then I went to Morgan and gave him a check for \$500. Morgan gave me the receipt and I went away. My arrangement with McKenzie was that he was to operate for me one month free of charge, and after that time he was to have 25 per cent of the profits."

Mr. Bailey continued that in March he was in McKenzie's office and that he was told that he was to have notice from Morgan and McKenzie of every month. At the end of the first month McKenzie said he had a profit of \$50.

"Later on I failed to get the customary notice and could get no statement of the account. I visited Mr. McKenzie many times, but was always put off with the excuse that he was too busy to receive me. Finally his manager, Mr. Turner, would see when I called and told me that McKenzie was either busy or out of the office. I waited patiently for weeks and was finally informed that my account had been wiped out."

McKenzie Zeller asked Bailey what became of the profit. Bailey replied that it went with the rest. "Profits and principal all gone?" asked the Judge. "Yes," replied Bailey.

Robert Dabich, of Morristown, N. J., was also examined briefly. He told of having lost \$100 through the same tricks as practiced on Mr. Bailey. The case was then adjourned until Dec. 13.

Arrested in Court.

Claude Turner, manager for J. H. McKenzie & Co. appeared in court to see how the case was going on, and he was promptly arrested and held in \$500 bail.

McKenzie Thanks The World.

Chief of Detectives McCluskey in speaking of the crusade in Wall street said to an Evening World reporter this afternoon:

"The widespread publicity given by the World has been of great help to us."

Wife Had No Faith in Sussman Fully Dressed.

Gustave Sussman, a tailor, faced an angry woman in the Essex Market Court today.

She was his wife, Kate Sussman, of 2 Avenue B. Two months ago she married him and two weeks later, she charges, he disappeared with the \$300 that she gave him on their wedding day. She went to court and obtained a warrant for his arrest and then set out to catch him.

After a long search she found him and promised to give him more money. He returned last night.

After the patient husband retired for the night the wife hid his clothing and summoned Court Officer Schwartz, who had the warrant for his arrest.

The policeman took Sussman from his bed and the designing wife returned him his clothing.

Then she kept a shrewd eye on him till he was safe in court.

With flashing eyes she told Magistrate Cornell that in searching his clothes she had found a letter addressed to another woman.

He begged and pleaded in vain to be forgiven. Never again would he leave her, he said, and in the future he would make amends for the past.

"No, no," cried the wife. "You fooled me once, you can't fool me again." He was held to pay her \$100 in default of bonds he was locked up.

MINISTER SOUGHT POINTS.

Wa Quite Sure Agreement Signed by Envoys Will Suit China.

WASHINGTON, Dec. 6.—Minister Wu called early today at the State Department for the purpose, he said, of obtaining information in detail of the agreement signed by the Envoys at Peking yesterday.

After his conference with Secretary Hay he stated that he had not seen the text of agreement, but he did not doubt that its salient points were covered in the cablegrams from China. He believes that the agreement as a whole will be satisfactory to the Imperial Government.

He was anxious to comply with every reasonable claim made by the foreign powers.

Wheat Market Easier.

Wheat opened a shade easier today in response to disappointing English cables which began at 3 1/2 to 3 3/4 per cent. lower. Trading was fairly active and liberal offerings at the start were gradually absorbed by operators who felt that the situation justified buying in spite of all setbacks. Corn was steady without notable change.

New York's opening prices were: May wheat, 79 3/4 to 79 7/8; March, 80 1/2; January, 79 3/4.

Chicago's opening prices were: May wheat, 74 3/4; January, 73 3/4; March, 74 3/4.

CHIEF MASON'S LETTER.

Strong Commendation of Dr. Greene's Nervura Blood and Nerve Remedy from New Bedford's Chief of Police.

The men who succeed are not laggards. Their active minds and supple bodies must be always alert and ready, quick to determine, vigorous to execute; eyes always on the goal, their zeal must never flag. No problem is too hard for these men. Temporary check to their plans merely stimulates them to renewed effort. Such men are the winners in life's battle. Weaklings look on at the undertakings of these men with languid eyes and sigh for their successes.

Such a man is Chief of Police Mason, of New Bedford, Mass., who writes the following letter to the public on the merits of Dr. Greene's Nervura blood and nerve remedy:

"It gives me pleasure to add my testimony in this brief note to that of many others of the high esteem in which Dr. Greene's Nervura blood and nerve remedy is held in this community. The fact that it is the remedy of a regular physician adds to the confidence in which it is held by the public. I have given Dr. Greene's Nervura to a personal friend who was ill, and was relieved to hear from him that he had recovered. From report and experience I am fully convinced of the value of Dr. Greene's Nervura, which I recommend."

HENRY W. MASON, "Chief of Police," New Bedford, Mass.

In the full knowledge that disease is the relentless foe of mankind, most men flout the banner of ignorance in the face of the giant and court his heaviest onslaught. Not until his heel is on their necks do they realize how outrageous Nature can assert herself. The struggle for health, perhaps for breath, it then begins, and no one can see beyond the gloom. It is not the man who is always afraid of taking cold or who flinches about exposure that keeps out of harm's way; it is the man whose robust constitution and steady nerve defy disease; whose blood is not the sluggish element that fills the veins of the weakling, but the pure, rich red blood of health.

Dr. Greene's Nervura blood and nerve remedy is the discovery of the celebrated Dr. Greene, and nothing ever prepared for the ill of men and women is so clearly an aid to Nature. Made entirely of vegetable elements it will of itself cure all ordinary cases of debility or nervous exhaustion. When the cases are complicated with the remnants of some devastating disease, Dr. Greene's advice should be sought, and the remedies at his disposal, his own discoveries, used as he advises, will bring promptly the indications of returning health—sound sleep, quiet nerves, hope and ambition. Dr. Greene's treatment is the quickest and surest road to health. Many years of constant experience with human ills, and a success greater than that of any other physician, should give confidence to every sufferer who needs advice and help, and who reads these words of comfort and hope.

DR. GREENE OFFERS FREE ADVICE.

Are you troubled with nervous debility, or indigestion? Are your days passed in misery and your nights in torture? Does darkness surround your pathway? Are you without hope of recovery, and wishing for death to relieve you? Are you tempted to take the fatal step of ending your suffering and mental anguish with a violent hand? Cheer up, there is certain help for you, prompt and kindly. Consult Dr. Greene. Call, if you can, at his office, 35 West 14th Street, New York City. If you can't call, you can write all about your case and in either event you will receive his advice free of charge.

Dr. Greene's Nervura blood and nerve remedy is the discovery of the celebrated Dr. Greene, and nothing ever prepared for the ill of men and women is so clearly an aid to Nature.
